

STUDENT POSTER COMPETITION 2015

Louisiana Remote Sensing and GIS Workshop presents its annual student poster competition!

Sponsored by the American Society for Photogrammetry and Remote Sensing

Students are encouraged to submit posters depicting their work from class projects, thesis or dissertation work, or individual research.

Guidelines:

- Posters should clearly define a research study, map, coursework-related project, personal interest, or other process which incorporates geographic science and technology
- Students may submit one poster for the competition
- Students must bring a printed copy for display at the workshop
- Posters should be no larger than 42" x 60"
- Presenters will be provided with an easel and foam core board
- All poster presenters must be registered before the poster is displayed
- Abstracts and a digital version of the poster must be submitted by midnight May 4, 2015

Judging and Awards:

- Posters will be judged on scientific and technical merit, effective design and use of cartographic principals, & overall impression/quality of work
- Student posters will be judged by a panel of experienced geographic information specialists during the LA RSGIS workshop
- Students must be present during judging to answer questions
- Cash prizes will be awarded: \$200 First, \$100 Second, \$50 Third place poster. All winners receive a one-year membership to ASPRS
- Contest winners will be announced during the awards ceremony
